The election of Mayor Bransford is practically assured; but it is equally as important to elect an American council as to elect an American Mayor Mattern for publication, to "Editor The or American heads of departments, ibune, Salt Lake City, Utah." It is true that the reactionary voters

and the obstructive policies of Couneilman Mardoch have not stopped the progress of this city; but it is equally true that if a majority of the Council had been of his way of thinking progress would have been stopped and improvements blocked on every hand.

This fact is easily apparent to every one. The lesson, then, is that the Amer cans cannot afford to lose the Council any more than they can afford to lose the Mayor or the general ticket. We urge upon the American voters and the American workers that they should especially diligent with respect to the Council ticket, to the end that a majority of the Council shall be made sure and fast for Americanism and for progress. Without this, the victory on the general ticket would be vain. The city would be helpless in the grasp of the mossbacks and reactionaries. In all of the wards of the city, there

## THE CHANGE OF FRONT

One section of the church's political activities is loud in denouncing the idea that city elections have any relation to National politics. But the "Federal should not become alarmed on that as banch" church men quite as loudly assert that National politics must control in such elections; that "a party Well Known Hotel Keeper Uses and without National recognition is no Which is a pretty straight punch for the solar plexus of the "Citizens" morement

It is a characteristic of the church politicians that there is no consistency in their attitude on this or any other question. Smoot showed this the present year, while insisting on fusion in this city, where he knew that his "National party," could not win, the device being a Citizens' movement; while at the same time he viciously and scornfully undertook to stamp out Citizens' mevements in Provo and other cities

where he expected his party could win. And so it goes. It is all right to have fusion and Citizens' movements, parties "without National recogni tion," when the "Federal bunch cannot win; but it is the worst possible policy to have parties "without Na tional recognition' crop up where 'Re publican' success is expected.
